

COMPETITIVE MANUFACTURING

PROGRAM OUTCOMES:

Tailored to your business we focus on a Continuous Improvement Program that will result in an increase in productivity through the reduction of waste:

- Strong Project Management techniques
- Proven Lean Management principles
- Six Sigma and 5S improvement methodologies
- Key elements of Toyota System approach
- Applying modern manufacturing excellence in the workplace

All aimed at generating continuous and sustainable improvements for business achieving real bottom line results and setting the platform for positive cultural change.

Structured around Lean Manufacturing concepts, this on-the-job coaching creates maximum ownership and engagement.

Delivered in the workplace, our program is very different from most training programs and focuses on learning through real projects that improve your bottom line. The candidates' assessments are based on workplace improvement projects and are practical and action oriented. The courses are nationally accredited and competency based.

YOUR BUSINESS WILL GAIN:

- Actual bottom line improvements to business processes
- Cost neutral
 - > Federal funding can mean that the only cost is your time
- Your staff working with our experienced facilitators on projects
- More engagement from your staff
- Improved business environment for your people

YOUR TEAM WILL GAIN:

- A nationally recognised qualification in Competitive Manufacturing
- Improved understanding of continuous improvement techniques
- Improved leadership skills
- Better skills to facilitate continuous improvement in the workplace
- Opportunity to realise their full potential
